# TYPEWRITER

**FOR FIFTEEN YEARS THE STANDARD,**  
And Constantly Improving.

The embodiment of the most valuable Typewriter improvements of recent years,  
and Far Superior to all others in the Great Essentials of

**SPEED, DURABILITY AND EASE OF MANIPULATION.**

It is sometimes only after unsatisfactory experience with inferior  
and experimental machines that the REMINGTON is adopted and success  
attained. A great saving may thus be effected by securing the

**Standard Typewriter as the First and Only Investment Required.**

Recent improvements are fully appreciated by expert operators.

# SIDEWALK AND FLOOR LIGHTS

## OF ARTIFICIAL STONE AND GLASS.

No Iron on Surface to Rust, but all Stone and Glass. About 17 per cent more Glass Surface per foot than when iron frames are used, consequently that much more Light to Basement.

No iron knobs to hold dirt. Glazed with Plano-convex or Refracting Lens, for lighting towards the rear of deep basements.

## ARCHED AND FLAT FIRE PROOF LENS SKYLIGHTS

For Brilliantly Lighting the Rear of Deep Stores.

ACME VENTILATORS, Unequaled for Producing Draughts.

DAYLIGHT REFLECTORS, for Lighting Dark Basements.

## Improved Vault Construction.

ESTABLISHED IN 1875.

NAVIGATION SCHOOL, 404 and 406 BEALE STREET, S. F.

Authorized by the Board of Marine Underwriters of San Francisco.

Director,  
Captain E. McNEVIN.

Examining Officers, Appointed by Board,  
Captain H. H. WATSON, Captain G. CUMMING.

The School is open daily (Saturdays excepted) from 3 to 5 P. M., and from 7 to 10 P. M., for the instruction of pupils in all branches of Navigation. The course is thorough and will enable those taking it to obtain Certificates of competency as required by the U. S. Shipping Act. Masters and mates of vessels will find this School specially adapted to fit them for passing the examination made necessary by the said Act.

The use of nautical instruments, as the Chronometer, Compass, Sextant, Azimuth, etc., practically taught and illustrated. Instruments and books (including McNevin's Works on Navigation and Marine Laws, etc.), can be procured at this school.

Lectures to pupils each Friday, on Ship-Masters' Duties, Maritime and Commercial Law and Seamanship.

Terms reasonable and to suit convenience of pupils. Applications for further particulars may be made to

MANUFACTURERS AND PATENTEES OF THE LATEST IMPROVED

## SELF-REGULATING WINDMILLS AND HORSE POWERS.

Also, Tanks and all kinds of Pumping Machinery.

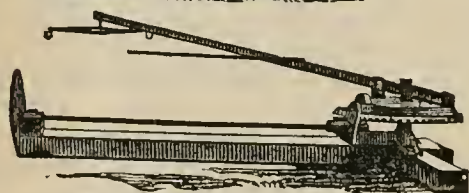

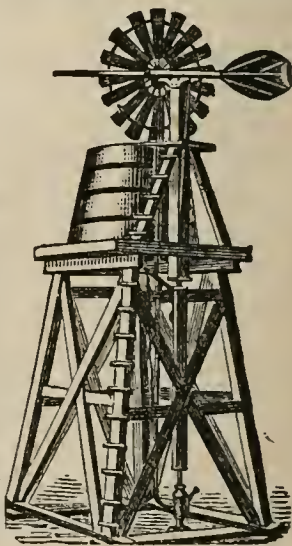

**Krogh's Patent** latest improved self-regulating Windmill, and 1st Premium Horse-Power, for all purposes, such as pumping water, chopping feed, churning, sawing wood, running machinery for manufacturing, mechanical or other purposes.

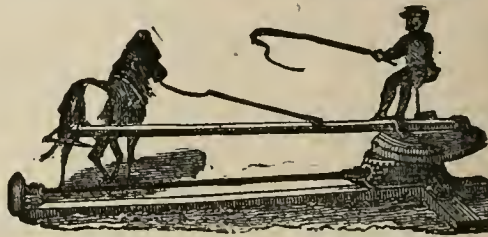

Our latest improved self-regulating Windmill was patented March 15, 1881; is warranted to be the best wind machine ever invented; very simple in construction, strong and durable; will pump more water than any windmill now in use, and once put up they require no attention whatever except oiling. They are built to withstand and adapt themselves to the fury of the gale as well as to light breezes, and to work steadily **without expense.**

Our Horse-Powers are complete in every detail, and possess every improvement and advantage that can be combined in such machines. They are provided with air-tight, dust-proof, self-oiling journals. Two men can take either of them apart and put them together with ease.

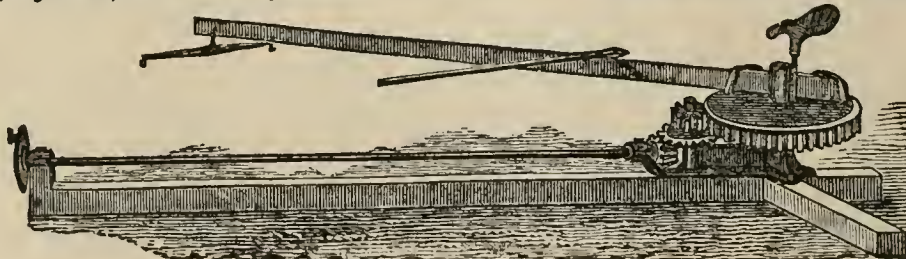

**Tanks, Pumps, Pipes, Shafting, Pulleys, etc.,** furnished to order.

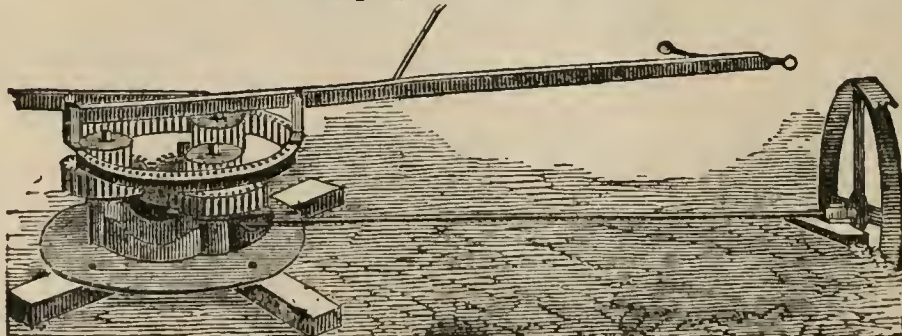

**Dairy Queen,** for use of Dairymen.

**Economy,** for 1 or 2 Horses.

**Eclipse,** for one Horse.

**Monitor,** for one, two or four Horses.

Tourists visiting this State cannot find a more beautiful and diversified trip. The steamers leave the ferry slip at the foot of Market street for Sausalito, the only Resort on the Bay where good bathing, boating and fishing can be found. The route from here runs along Richardson's Bay to the base of Mount Tamalpais, one of the most striking features of the Bay of San Francisco. Stopping at the station named after the mountain, the traveler will find teams ready to take him up to the top of this giant, from which a magnificent view of the Farallone Islands and the Pacific Ocean can be had. One mile from this you reach **Ross Station**, the starting point for **Bolinas**, the most romantic little watering place on the Coast. Three miles further you commence to climb White's Hill, and before reaching its summit you will have witnessed two such perfect "Horseshoe Bends" that almost convince the traveler that he is viewing another road than that over which he has just passed. Almost immediately after the descent of this mountain commences, views of the picturesque valley of the Lagunitas greet the eye, and in a few minutes the angler is anxious for the train to stop so that he can throw his line in the rippling waters of the **Paper Mill Creek**, which are filled with trout. At thirty miles, or only two hours from the city, you reach **Camp Taylor**, where the hungry sportsman or city traveler can find rest and refreshment. Three miles from this you reach **Tocaloma Station**, where stages are ready to drive you to **Olema Town**, or through **Bear Valley**, one of the most beautiful in the world, to the Ocean, a distance of six miles; five miles from this you reach **Point Reyes Station**, where again teams are found waiting to convey you to the site of the New Hotel "Inverness," which will vie with any on the Pacific Coast! Almost immediately fronting this hotel is one of the finest beaches in the State. A short distance from this station the route skirts the **Bay of Tomales** for nearly sixteen miles, whose waters are filled with fish and covered with wild fowl. Reaching the top of **Tomales Hill** you enter the town of that name, the center of a prosperous agricultural region. From this station to **Valley Ford**, distant six and one-half miles, the country is entirely devoted to potatoes and grain; thence to **Freestone**, four and one quarter miles, where the aroma from the far-famed Redwoods is first detected, but upon arriving at **Howards** (or Occidental, as the Postoffice is still called) distance only three and three-quarter miles you are fully impressed with the wonderful appearance of these health-giving "Giants of the Forests!" From this station large quantities of lumber, bark and wood are shipped; from this point to **Duncan's Mills Station**, a distance of ten miles, splendid salmon and trout fishing, boating and bathing are to be had along the banks of the Russian River; thence along Austin Creek for a distance of seven and a half miles to **Cazadero**, the present terminus of the road, and one of the loveliest spots in the State, the climate being as soft and mild as that of southern France.

The Hotels and adjoining cottages all along the route have been thoroughly renovated and fitted up with all modern improvements, and are now being kept by experienced men, who know the value and importance of a good table.
